**The Ultimate Blend of Ingredients
and Aromas Bears Can't Resist**

BEAR MAGNET[®]

*A Special Blend of Ingredients and
Aromas That Bears Can't Resist*

DIRECTIONS: Select a bait site up-wind of travel or feeding areas. Open the flip-top cap and apply a generous amount of Bear Magnet to a stump, sides of a tree, on the ground, or around logs. Some hunters prefer to soak a rag and hang four to six feet off the ground to intensify the scent stream. Close the container securely and get into your stand.

REMEMBER: Bears have an incredibly keen sense of smell. Bear Magnet pulls them in close, so increase your effectiveness and keep your body, clothes and gear scent-free "invisible" by using Code Blue's Advanced Formulation Shampoo and Body Wash, Laundry Detergent and EliminX[®] Odor Neutralizer.

CAUTION: Do not apply to body, clothing, gear or around ground blinds. Keep out of the reach of children. Wash hands thoroughly after use. Not for human consumption.

Keep out of reach of children
