Why Hunting Legends?

Hunting Legends offers a truly legendary experience, richly flavoured by the nostalgia of a Colonial era and the romanticism of Africa’s people, its wildlife and its legends. As Africa owns the time, we have used it painstakingly to sculpt this adventure to our clients’ needs over many years of hunting.

Although the emphasis is on the thrill of the hunt, it is but one aspect in the final ensemble of fond memories, awe-inspiring stories, and magnificent trophies you will take home. Hunting Legends Africa offers you a variety of options when hunting in Africa.

You have the choice of several African countries where to hunt, a selection of the finest lodges to stay in, an amazing variety of species to hunt and the best weather you will ever get to experience.
